As a driven front-end developer, I have experience in designing, coding, and delivering visually engaging web and email solutions that are effectively responsive to users' needs.

WORK EXPERIENCE

Front-End Developer

Freelance | Dec 2022 - Present

- Implement HTML5, CSS3, and JavaScript to build responsive emails and websites
- Design highly usable web and email products using Figma and Canva
- Craft custom email layouts optimized for viewing across various email clients

Website Content Editor

Softwired | Nov - Dec 2022

- Utilized SEO techniques with WordPress to edit content for web pages
- Customized websites using HTML5 and CSS3
- Collaborated closely with the CEO and other developers through Slack and Asana

Social Media Content Editor

Surefire Local | Apr - Jul 2022

- Developed fresh content such as text posts, photos, and videos for clients
- Worked closely with project and account managers, as well as graphic designers, in order to ensure the successful completion of each project
- Designed social media posts (photos/marketing displays) using Canva
